Mr. Bitner  
Automobile Club Service Agency  
Pennsylvania Avenue at 17th Street  
Washington, D. C.

Dear Mr. Bitner:

25X1A  
Your name was referred to me last week when I called in connection with my insurance policy procured through your agency. The policy is written with the American Mutual Liability Insurance Company and the Allied American Mutual Fire Insurance Company and is numbered [REDACTED]. I had attempted to secure an interpretation of certain clauses in my policy. The principal clause in question is paragraph 2 of the Amendment: Paragraph V (a) is completely unintelligible to me.

After reading this section a number of times I failed to see either the intent or the literal meaning of the section. Therefore, it would be appreciated if you would furnish me with a simple and understandable statement of paragraph V (a).

In addition to the above I would like an official interpretation of the following: if in the course of my duties with the Government I drive government vehicles, will the policy cover me in the event of an accident? I am not hired as a chauffeur but on occasion it has been found convenient and efficient for me to drive the government vehicle assigned to my particular office. If further information is needed to answer this last question I shall supply it upon request.

Very truly yours,

[REDACTED]
